

PROFESSIONAL SUMMARY

Frontend Developer with **2 years of experience** in creating responsive, user-friendly web applications using **React.js, Next.js, JavaScript, HTML5, and CSS3. Proficient in Redux, Tailwind CSS, TypeScript, Webpack, and AWS.** Skilled in solving complex problems with a focus on optimizing performance and delivering seamless user experiences.

TECHNICAL SKILLS

Skills	: React.js, Next.js, NodeJs, Express, HTML5, CSS3, JavaScript (ES6+), TypeScript
Styling Frameworks	: Material UI, Tailwind CSS, SASS
Libraries	: Redux, Redux Saga, React Router, React Query, Web Socket, React Hook Form, Yup, Jest (Unit Testing)
APIs & Integration	: RESTful APIs, GraphQL, Apollo Client, Axios
Tools	: Webpack, Vite, NPM, Yarn, NX, Git
Cloud Skills	: AWS S3, AWS CloudFront, AWS Amplify

EXPERIENCE

Software Engineer <i>Thinkitive Technologies Pvt. Ltd.</i>	July 2022 – Present <i>Pune, India</i>
<ul style="list-style-type: none"> Developed an Electronic Medical Records (EMR) application for healthcare providers, enhancing patient management, appointment scheduling, and medical records tracking, leading to a 30% reduction in administrative workload and a 20% increase in appointment scheduling efficiency. Built and maintained web apps with React.js and Next.js, using Webpack and Vite to speed up the build process and reduce page load times by 30%, significantly boosting overall performance and user experience. Enhanced user experience by integrating video calling functionality using WebRTC and Twilio, leading to a 25% increase in user engagement. Implemented real-time chat features with WebSocket, resulting in a 10% improvement in communication efficiency within the application. Mentored junior developers, sharing best practices and guiding them in modern frontend technologies. 	

PROJECTS

RESTORE-Insights

RESTORE-Insights is a new Skill-building Electronic Medical Record (EMR) that enhances therapy management in skilled nursing facilities.

- Developed **Super Admin, Enterprise Admin, and Therapist portals** for the Restore-Insights.
- Added features such as enterprise, facility, therapist, and patient onboarding, appointment scheduling, therapy planning, clinical note keeping, therapist availability maintenance.
- Designed and implemented a scalable React framework using a **monorepo with NX**, achieving a 30% increase in code reusability and reducing development time by 20%.
- Created **Firebase web-based notification functionality** and integrated **ThoughtSpot**, enhancing reporting capabilities and enabling real-time data analysis for over 500 daily reports.
- Technology Stack** : React.js with TypeScript, NX and Vite, Material UI, Redux, Redux Saga, Firebase.

uRecruits

Urecruits is an all-in-one HR platform that makes managing people and hiring easier. It brings together all the different HR tasks into one simple system.

- Integrated authentication features with Google and LinkedIn using **Auth0**, simplifying user login processes while enhancing security and accessibility.
- Integrated a **mailbox system**, leading to a 20% improvement in communication management efficiency within the platform.
- Integrated **video calling features** using **Twilio**, resulting in a 15% increase in virtual meeting participation and enhancing the overall interview experience by providing more seamless and interactive communication.
- Technology Stack**: React.js, Next.js, Nx architecture with micro frontends, Redux, SASS, Twilio, Auth0 and AWS S3.
